

Sequence diagrammen, requirements document

March 9, 2012

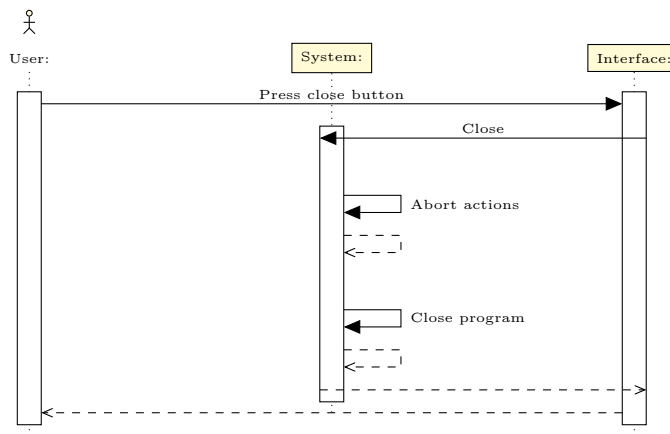

1 Verhaaltje

Following are sequence diagrams for each of the use cases. They visually describe the flow of events. Note that these diagrams are all high level and the technicalities might differ in the architectural report.

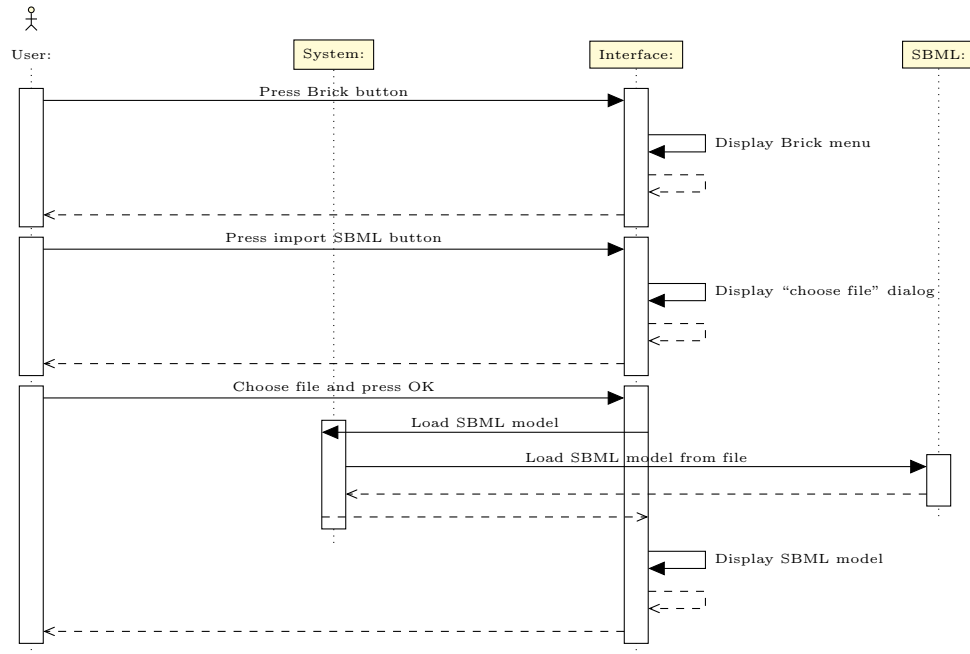

2 Use case #1: Start application

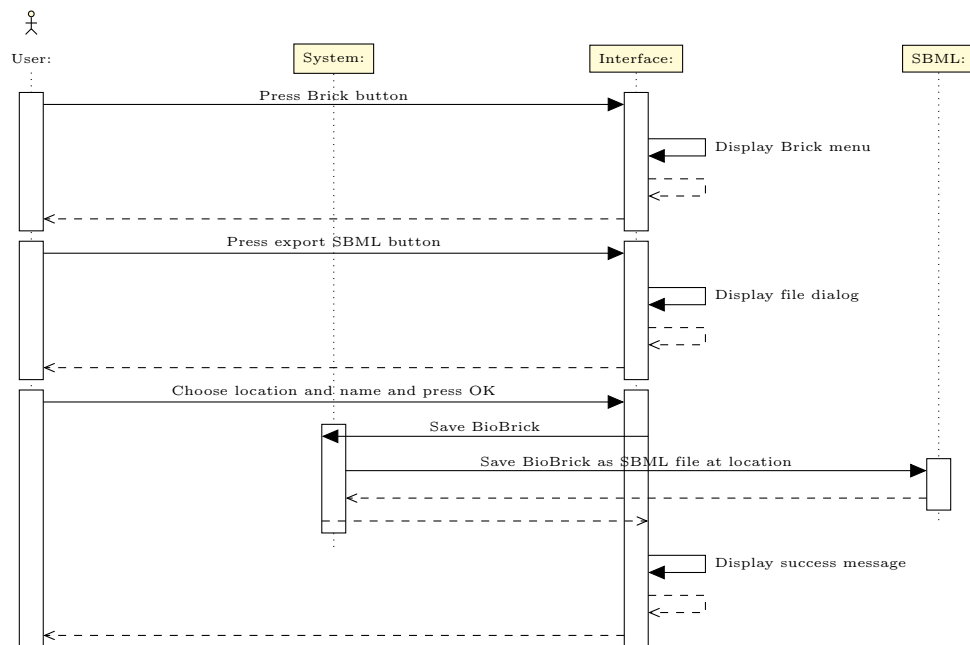

3 Use case #2: Quit application

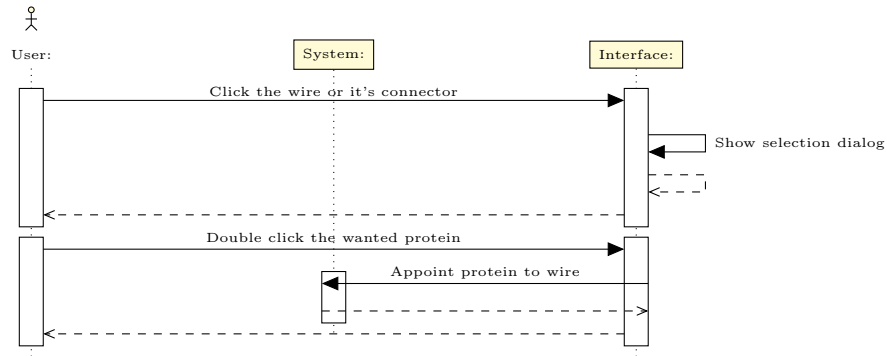

4 Use case #3: Import SBML

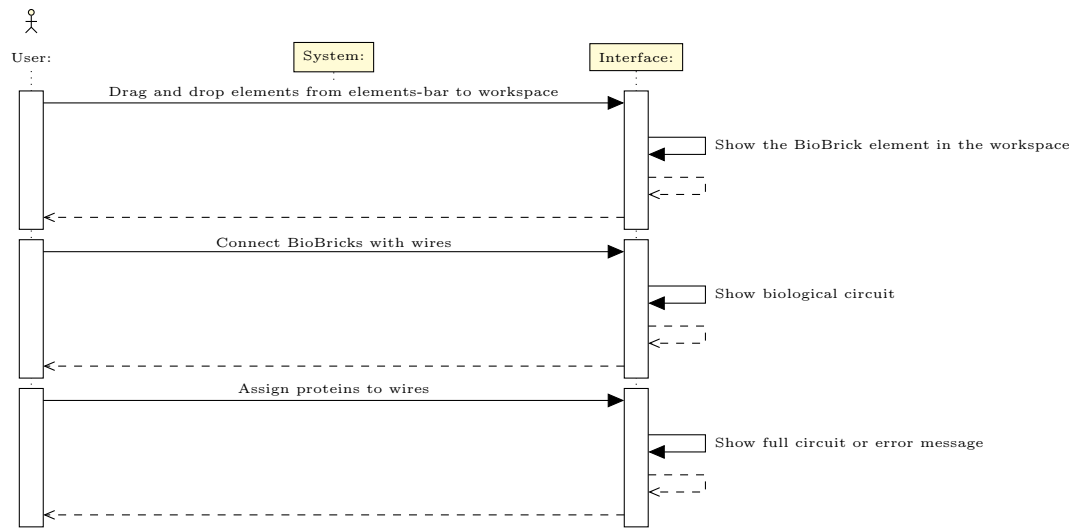

5 Use case #4: Export SBML

6 Use case #5: Specify protein for signal

7 Use case #6: Model BioBrick

8 Use case #7: Simulate BioBrick
